This is clearly for the present

of their pay, under the Senior

For
the [illegible] of the 2nd C. Cash.
Asst. Surgeon by only Rs 70 I
can't see how a Senior Hospital

Perhaps all the Colleges' allowance
should therefore be not counted

I agree that there was no intention
either way upon the present point
when the orders of 26 January 1887
were passed - It is now raised
and having regard to the fact
that, the Senior Hospital

lay down that the Salaries

With reference to a Conversation which I had the other day in My. with the Dewan on the subject of some allowance to the Senior Hospital Assistants, I have the honor to propose for his consideration the advisability of granting some special allowance to a few of them.

It would seem to me to be desirable that they should have something to look forward to as they now complain, and with probably some reason, that they have not, as district when vacant are given to

Assistant Surgeons; that there are no extra allowances for other charges likely to be given to them; and that they have practically no chance of ever getting any more than the pay of their grade during the whole of their service, no matter how well they may work.

I think it would be desirable to remove this feeling and to offer something in the nature of a prize or reward for good service and good behaviour, and I would propose that three of the senior men, that is, where seniority and efficiency go together, be designated "Senior Hospital Assistants", and get monthly allowance of Rs. 30/- Rs. 30/- and Rs. 20/- per mensem respectively, to be increased after three years approved service by Rs. 5/- each which sum can be met from the Budget grant.

Something of this kind obtains in the Madras Presidency, and the introduction of something similar into this Province would have a beneficial and encouraging effect.

No. D. 4-5—L. F. 79-92, DATED MYSORE, 7TH OCTOBER 1893.

ORDER THEREON.—Government observe that the Indigenous Hospital was established in September 1892 to test the efficacy of native methods of medical treatment. Senior Hospital Assistant Rangaswami Pille, who combines a wide experience of both Native and English methods of treatment, was appointed to supervise the institution. To the *Carnatic Dispensary*, which was then started, a *Unani Dispensary* was added in November 1892. The Hospital Assistant reports favourably on the operations of both the Dispensaries and his opinion, Government are glad to observe, is borne out by the statistics furnished. Whether judged by the percentage of cures effected, or by the attendance, which is more than twice as large as in the neighbouring Municipal Dispensary at Irangeri or by the cost of treatment, which is less than half the cost incurred per head in the latter Dispensary, the institution has more than fulfilled the expectations of Government both in regard to popularity and cheapness of treatment. Under these circumstances, Government are pleased to sanction the increases proposed by the Board as noted in the margin* with effect from 1st July 1893, excepting in the case of the Hospital Assistant who may be allowed charge allowance at the rate he was drawing at Tiptur before he joined the Indigenous Hospital, from the date of his joining up to 30th June 1893 and at Rs. 15 from 1st July 1893.

I have the honr to forward the marginal noted papers for orders of Government with a recommendation that if possible the prayer of the Hospital apprentice to have his pension allowance calculated on the pay and allowance as Senior Hospital apprentice amounting to Rs 90/- per mensem which he has been drawing since 26th January 1887 may be granted.

2. He is a man of unexceptionable Character and has served Government diligently and loyally for over 40 years and his case might be treated as an exceptional one.

3 With a view to facilitating the grant of the prayer of the Hospital apprentice I would suggest that the pay and allowances of the Senior Hospital apprentices may be consolidated with retrospective effect from the dates on which they were promoted to that grade

Respected Sir,

Being given to understand that I shall have to retire from service from the next month, I beg leave to submit the following for your generous consideration.

I entered Government Medical Service in 1854 as 2nd class Hospital assistant and have up to date been working with equal zeal to the satisfaction of one and all of the Officers under whom I had to serve, as may be seen by a kind reference to my service† Register and the annual Reports as well as the accompanying copies and extracts of testimonials &c. I was promoted to the post of 1st class Hospital Assist on Rs 60. on the 3rd November 1868 subsequently under Government Procedure No 7000-1/72 of 26th January 1887 I was promoted to the grade of Senior Hospital assistant with an allowance of Rs 30 in addition to my pay of Rs 60. I have also been in receipt of an allowance of Rs 20/- from 1st April 1889 for assisting the Chemical examiner in the Chemical House for the last 30 years besides my legitimate duty in the Hospitals. I have thus been in receipt of Rs 110. from your bountiful hand every month for

† Medical Register & Service Rolls

which is 26th January 1887. 19

4 If this Consolidation were carried into effect it would give promotion to the grade of Senior Hospital Assistant an intrinsic value which it does not at present possess and it would not be likely to Cost Government much as Hospital Assistants do not retire until they are compelled to by age or ill health.

5. There are no Senior Hospital Assistants in the Civil Medical Department of the Madras Presidency but in the Military Department there are and their grade pay is Rs 80/- per mensem which being substantive or Grade pay entitles them to have their pensions Calculated on it.

3. By Hospital apprentant Pommiecoudry Reay's promotion five Hospital apprentants would to all appearance be superseded but four of these have 13 and 14 years less service than he has, they have not done better work during their time than he has and therefore I am of opinion that it is only right that he should supersede them as promotion to the Senior grade should be more because of merit and long service.

4. As regards the remaining one he has not in my opinion done as good service as Pommiecoudry Reay and therefore has not good a claim.

5. Pommiecoudry Reay is the Hospital apprentant in Charge of the Arlapett dispensary and Chattrum Hospital. He has done excellent work during the four years he has held these Charges and in Connection with the inspection of pilgrims and travellers arriving by rail daily and deserves encouragement and reward.

Pommiecoudry Reay is AI medical Officer, and I have known him for the last 13 years. In the Arlapett Dispensary he has done excellent work & is exceedingly popular. Successful and skilful.

His promotion may be sanctioned since promotion depends on merit & not necessarily on seniority

SIR,

Mr Rangasamy Pillé, Senior Hospital Assistant in charge of the Indigenous Hospital at Mysore, sent in a memorial praying for promotion and for the title of Honorary Assistant Surgeon. It was sent to the Senior Surgeon. But that Officer did not reply to it. Then Mr Rangasamy Pillé again urged his prayer. That was also sent to the Senior Surgeon. Then he replied and said that he did not think that Mr Rangasamy Pillé was entitled to the consideration prayed for any more than other Hospital Assistants. But he has now forwarded a memorial addressed

addressed to Government with a request that it may be submitted direct to Government as he is not under the Senior Surgeon, but under the Deputy Commissioner and as, therefore, the former is not in a position to know the nature of his work in the Indigenous Hospital. I accordingly submit it herewith with all its accompaniments. The latter contain also copies of the whole of the correspondence above referred to. That Mr Rangasamy Pillé is popular and that the institution, over which he presides, has been of use to the people and is being resorted to by them very numerously there seems to be no doubt. To achieve this result he

Thro' The Deputy Commr. Mysore Dist.

I. T. Rungasawmy Pillay Senior Hospital Assistant incharge of Mysore Indigenous Hospital beg leave respectfully to approach the Government with the following in the humble hope that the Government will be pleased to give the subject matter their kind and favorable Consideration.

I have been incharge of the Indigenous Hospital for the last 3½ years. During the period I need hardly submit that I have worked with great deligence and devotion, even at the sacrifice of my private practice, having in my view to bring Indigenous medicines to their due prominence, as, valuable and effective medicines, though explained and prescribed in the Shastras had been lost sight of in practice. The number of patients attending and the number successfully treated in the Hospital is daily on the increase. The details of which I append below is sufficiently encouraging.

The success and popularity of this institution deserve every encouragement, and additional attention and as a guiding spirit to the working staff, I am necessitated to devote all my earnest and anxious labours, it is but deserving that the Government may be pleased to kindly consider the question of my being adequately rewarded and encouraged. My pay at present as a Senior Hospital asistant is Rs:90, plus Rs 15 as a charge allowance. My service in the Medical Department extends over a period of nearly 26 years. I stand Senior in service and rank in the Subordinate list of Medical Department and as such I head the list of Hospital asistants in the Province. On 3 or 4 occasions I have acted as an Asistant Surgeon incharge of Trichinopoly and Chitaldroog Districts and during the time that I was so incharge of the District Hospitals I humbly trust that I have given every satisfaction to my superiors. I know Hindu and Unani Medical Science and am conversant with both the methods of treatment.

When there was a need for an experienced Medical officer who was also to be conversant with the virtues of Indian drugs and the mode of administering of Native

medicines to take charge of the Government Indigenous Hospital established at Mysore in September 1892, the Government was pleased to select me and thus my services were taken to the Mysore Indigenous Hospital. My appointment in a place like Mysore city where living is too costly which petitioner is necessitated to pay a house rent of 15 Rs a month &c has placed me at a disadvantage in the pecuniary consideration, yet with due deference to the kind orders of the Government I accepted the charge and made it my first duty to establish the institution on a sound basis and have made it very popular which of course is a matter that the Government will be pleased to observe from the daily attendance register and the visitors book kept in the Hospital. Mr P. Bhuntac Rao Pantalugaroo the retired Councillor to H. H. the Maharaja of Mysore had promised me that he would better my prospects and status if I should work hard and establish the institution on a sound basis. A few extracts from the visitors book herein enclosed will speak about my devotion to this work and the amount of good I have done for the public.

On 14th February 1896, a printed application a copy of which is herewith

There after I submitted another applic-ation to Deputy Commr. with a request that it may be sent to Government direct as I am not in direct subordination to the Senior Surgeon. The Deputy Commr. again referred the petition to the Senior Surgeon who at last replied to the Deputy Commr. that the Senior Hospl. assistant viz the petitioner has not more claims to special advancement than the majority of Hospital assistants in the Service, that as the applicant receives 15 Rs: charge allowance, he considers that I was very well off and that he was not prepared to recommend to Government. MYSORE DISTRICT.

Sir,

I beg leave respectfully to approach you with the following in the humble hope that you will be pleased to give the subject matter your kind and favourable consideration.

I have been in charge of the Indigenous Hospital for the last 3½ years. During the period I need hardly submit that I have worked with great deligence and devotion, even at the sacrifice of my private practice, having in my view to bring Indigenous medicines to their due prominence, as, valuable and effective medicines, though explained and prescribed in the Shastrass had been lost sight of in practice. The number of patients attending and the number successfully treated in the Hospital is daily on the increase. The details of which I append below is sufficiently encouraging.

Extracts of remarks in the Visitors' Book of the Indigenous Hospital at Mysore.

This is the second occasion of my inspection of the Indigenous Dispensary. This is a very useful institution and is very popular with both Hindus and Mahommedans. Mr. Rangasawmy Pille who was a popular Hospital Assistant and who has devoted much attention to Hindu medicines is in charge of the Hindu or Karnatic section. Mr. Goolam Hussan attends to the Unani Section. The average daily attendance in both the branches is I understand between 300 and 350.

The medicines are kept in good order but some of the powders in the Karnatic section were kept in dirty tin boxes. I think good clean bottles should be provided for keeping medicines. I saw a placard put up giving the different diseases as known to the Hindus and the medicines for them, in manuscript. I think it will be useful to have this printed and additional information given as regards doses and the diet prescribed.

I next inspected the room in which the medicines are prepared. It is a dirty low room very ill kept. The tiled roof is low and full of dirt and soot. The floor is of mud and cut up in some places. I would recommend a clean spacious place being provided for the object with a concrete floor with a flat tiled or terraced roof and a well drained room for preparing decoctions and medicinal oils.

I understand that the money provided for medicines is insufficient. I trust the authorities will grant the necessary funds as the Local Funds cannot, in my opinion be applied for any more beneficial purposes.

On the whole I was pleased with the institution and wish it every success.

I visited the institution on 28th instant and was glad to find that much progress has been made in preparing and keeping in store a variety of medicines according to native methods for treatment of all diseases. The daily numbers of patients is increasing which is a sign of the popularity of the Institution, which deserves every encouragement. Mr. Rangaswamy Pillay deserves praise for having during a very short period given so much attention for laying in such a good stock of valuable medicines. I would suggest that if possible the applications from other medical institutions in the Province for supplies of medicines be complied with either gratis or on payment of cost price, so as to enable those institutions also to try the medicines.

I visited the Dispensary of native medicines this evening in company with Mr. Ramachendra Iyer, and was very much pleased with the arrangements made for the distribution of medicines. The registers shew the daily attendance of patients to be more than 300, and that in the majority of cases the treatment has been successful. The success of the Institution is entirely due to the care and deligence of the Hospital Assistant Mr. Rungaswamy Pillay who is not only thoughtful and careful, but also kind to the patients. He throws his soul into the work.

I visited both branches of this Hospital this morning and found everything neat and in good order. All that is required is some additional funds which I hope will soon be forthcoming.

As I am about to vacate the office of the Vice-Presidentship of the Mysore City Municipality on my retirement, I was asked to record my opinion of the working of this institution. The Carnatic portion is in charge of Mr. Kemparama Pundit and that of the Unani portion under Mr. Goolam Hoossain Sahib and both under the control and supervision of the senior Hospital Assistant Mr. Rungaswamy Pillay. The institution was established at the middle of 1892 and the daily average attendance is gradually increasing. I saw whenever I was present in the premises, men, women and children even of higher castes coming to this Dispensary freely to take medicine. In point of fact the institution is doing very good work, gained a very favourable opinion of the native population and proved eminently successful, so much so, many of the educated and enlightened gentlemen who are supposed to wish for treatment after English method have apparently taken a liking to this institution and take medicine from it.

Mr. Rungaswamy Pillay whose abilities and reputation in this profession are very well known to the people and he has taken very difficult and complicate cases and treated them most successfully.

Considering the usefulness of the officers of this institution and the hard and good work they turn out, it will be necessary to keep them in the institution by giving them an occasional increment to their salaries.

As a Municipal Commissioner of the Mohalla in which the Indigenous Hospital is situated, I have been in the habit of inspecting and carefully studying how this institution has been working. The object with which an institution of this sort was started was a laudable one and I am glad to find that the object is being realized. Day by day the institution grew popular and any one would realize the importance of the institution if he should only visit the Hospital in the mornings and evenings when men, women, and children of all casts and creeds will be assembled for receiving medicines with full confidence in them. The usefulness of the institution being beyond doubt well established, I should record as my opinion that it does at this stage require strong encouragement and support. The fund now fixed for meeting the cost of medicines is not sufficient. Mr. Rangaswamy Pillay Hospital Assistant has a natural love of work in this Department. He is a Senior Hospital Assistant and in him knowledge and experience of English medicines is combined with proficiency in the preparation and use of native medicines

I visited the Dispensary many a time. I am glad to see that the work done by this institution has been fully appreciated by the towns people. The average daily attendance of patients for July 1894 was 362 and an equal number for the following month. In furtherance of the noble object which led to its establishment, I think it needs more help and encouragement. The results of the working of this popular Dispensary are satisfactory, and I consider that an increase in the funds to meet its daily growing demands and also increments to the hard working officials in charge of it are matters worthy of consideration of the authorities concerned

Extracts of Remarks in the visitors book of the Indigenous Hospital

I visited the Indigenous Hospital Mysore. The arrangements made to afford the Ramatic & unani Medicines is exceptionally good. So many as 350 patients obtain treatment every day. of this number I find that more than 90 per cent are cured & discharged. Mr Ranga Swamy Pillay the gentleman at the head of the Dispensary takes the greatest interest in attending to the patients and from the enquiries I have been able to make of some patients, his attention and kindness to patients in general is almost paternal. In this Hospital I find purely native medicines. I am glad to bear testimony to the fact that the treatment received here is much appreciated by the people of the town. Mr Ranga Swamy Pillay is known to be well acquainted with the English & native modes of treatment. He is assisted by a popular native pundit & a Hakim. The Hospital is supplying a great desideratum in the city and these gentlemen deserve every encouragement at the hands of Government.
